ANNOVI REVERBERI:
MORE THAN 60 YEARS OF ITALIAN EXCELLENCE

A supermarket in Paris, a car wash in Los Angeles, a wheat field south of Kiev: the same thing in common: a product from the heart of Italy, an Annovi Reverberi pump. Founded in 1958 by Corrado Reverberi, Annovi Reverberi is still an Italian family-owned company, a mechanical engineering reality strongly linked to the territory and made up of people, ideas and innovative projects. An example of Italian entrepreneurship based on experience, innovation and passion. A brand recognized all over the world as a symbol of top quality and Italian know-how. It's more than 60 year history has seen the Annovi Reverberi group grow considerably and become a leader in three sectors of reference: agriculture with the production of diaphragm pumps; industry through the success of AR piston pumps and, finally, in the 90s, cleaning with the development of high-pressure washers and vacuum cleaners.
